Re: Authorized Service Center (ASC) Certificate

Dear Mr. Birch:

I would like to take this opportunity to thank you and your company for the time taken, to provide all the documentation required, in order to become an ASC. I would also like to extend my congratulations to the trainees who used the ACR University to finish the training, in order to provide a uniform service throughout on ACR products.

Attached, please find an ASC Certificate that allows your company to take part in all the privileges provided to a fully Authorized Service Center. The Certificate is valid for 3 (three) years from date of issue.

Please be assured of our support in any matter pertaining to any ACR products, now and in the future.

Best regards,

A handwritten signature in blue ink, appearing to read 'Nicolaas Buckle', is enclosed within a blue circular scribble.
