**Mr. Barry Aylward
President
Kitchener Aero**

January 13, 1998

Dear Barry

On behalf of myself and Dave Wilson, I would like to take this opportunity to thank you and your outstanding group of professionals for the tremendous work recently completed on two of our Corporate aircraft.

The last two years in our operation have been very challenging in terms of growth and client service, and have included the purchase and major modification of two new aircraft. Awarding the contract to Kitchener Aero for the installation of the CalQuest Sat phone and the KLN 900 GPS system in our Air Ambulance Cheyenne 111 A has proven to be a superb decision. It was clear from the start that the expertise and commitment demonstrated by you and your staff would ensure the work would be professional, on time and on budget.

Perhaps the best endorsement any company can receive is repeat business, so when the time came to upgrade the navigation, communication and aircraft performance capabilities of our new King Air 350 we had no doubt in returning to Kitchener Aero. The installation of the CalQuest Sat phone, KLN 900 GPS and the Short Field Enhancement kit was again nothing short of superb. Dave is especially impressed with the documentation and certification package that accompanied both projects.

In closing Barry I would like to again express my sincere appreciation for a job well done. You should be very proud of your operation and the great group of professionals that are an important part of it. Please feel free to include this letter in your reference package if you so choose. Avionics shops of this caliber should be well known.

Yours Truly

**Robert Madden
Director of Flight Operation**

**Dave Wilson
Maintenance Manager**
