

ADDRESSING THE NEEDS OF DASH 8 OPERATORS BY PROVIDING DIFFICULT-TO-SOURCE REPAIRS

Kitchener Aero repairs all Dash 8 components listed on the right, which are generally difficult to find a maintenance source for. All work is done in accordance with original manufacturers' and/or Transport Canada-approved repair specifications. Talk to us about other components not currently listed. We will lower your costs!

YOUR DASH 8 COMPONENT MAINTENANCE & HARNESSING SOURCE

- AFCS Interface Unit p/n 83401002-0xx and all individual printed circuit cards
- Bendix/King Gold Crown Series Radios
- Bendix/King KFS Series Control Heads
- Rockwell/Collins Pro Line Series Radios
- Rockwell/Collins CTL Series Control Heads
- Emergency Lights Control Unit p/n 82410162-00x
- Alternate Nose Landing Gear and MLG Downlock harness repairs
- Engine ECU Firewall and P & W engine harness repairs
- Laser wire marking

“KAAV – No longer the best-kept secret for Dash 8 avionics, electrical control, and indicating components’ repairs.”
